BRITISH AND FRENCH PRESS DERIDE PEACE PLEA

Germany's "Proposal Bears No Relation Whatsoever to the Objects for Which We are Fighting," London Papers Assert.

PEACE TERMS LAID DOWN BY ASQUITH MUST BE METT BY CENTRAL POWERS

London Newspapers Rap President Wilson on his Representations to Germany Regarding Deportation of Belgians.

London, December 13.—(Associated Press)—The German peace proposal is emphatically rejected by the Times, which says:

"Germany's proposal bears no relation whatever to the objects for which we are fighting.

"She has been trying by all the means at her disposal to induce us to make the suggestion of mediation.

"The attempt has lamentably and conspicuously failed, and, as she does not judge that any neutral power could proffer mediation with much advantage, she falls back on this indirect offer to the belligerents.

"It is above all things a symptom of her conscious weakness. The Allies must absolutely reject any idea of mediation in any shape, and from any quarter, so long as the basis proposed is the triumph of might, and not right.

"They must refuse with equal firmness to even talk about an armistice until the lands which the enemy has overrun are restored and compensation made.

"They must renew the enunciation of their peace terms, laid down once for all in Mr. Asquith's Guild Hall speech, and must redouble their efforts to force these terms upon Germany and her accomplices.

FRENCH PRESS IS DERISIVE

Paris, December 13.—(By Associated Press)—The offer of peace of Chancellor von Bethmann-Hollweg is received with a chorus of derision in the French press.

The newspapers are unanimous in the opinion that it is an admission that the situation is getting critical in Germany, and that the Chancellor wants to get out before it is too late.

His move is considered to have the additional advantage that, in the event of its failure, it will enable him to throw the blame for the continuation of the war on the Allies, which he hopes will have a moral effect on Germany and the neutral nations.

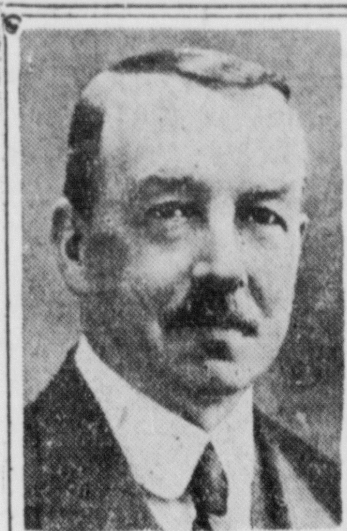

SHARP ATTACK ON WILSON

Amsterdam, December 13.—(By Associated Press)—The Koelnische Volks Zeitung published a sharp attack on President Wilson in connection with the representations to Germany regarding the Belgian deportation.

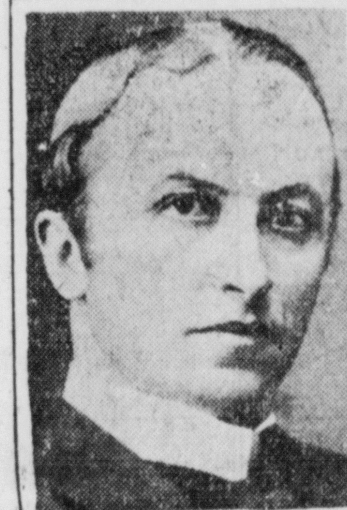

The newspaper considers his action incorrect, and says:

"We contest the right of the President of the United States to act as a moralist with regard to the acts of belligerents."

BRITISH EMPIRE AT WAR WILL BE RUN BY FIVE MEN, LLOYD GEORGE AT THE HEAD

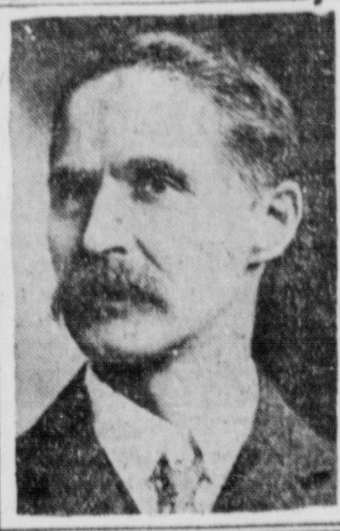

ARTHUR HENDERSON

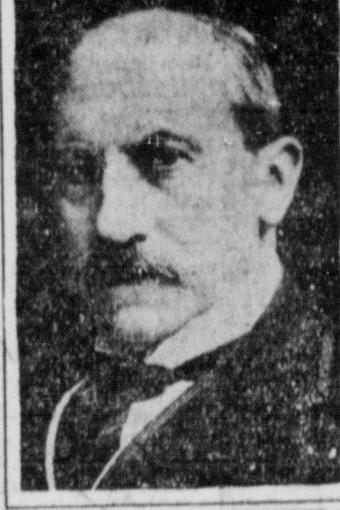

LORD CURZON

LLOYD-GEORGE

BONAR LAW

LORD MILNER

Concentrating the direction of the British end of the war in the hands of five men—Premier David Lloyd George, Lord President of the Council Earl Curzon (to be government leader in the house of lords), Chancellor of the Exchequer Andrew Bonar Law (to be government leader in

the house of commons), Arthur Henderson and Lord Milner the last two ministers without portfolio—places far more power in the hands of the prime minister than the British governmental system has ever known before. Mr. Lloyd George's proposals to Premier Asquith were for

a war council, of which the premier could not be a member, although he should have the power of passing on its work. Mr. Lloyd George has not hesitated to place himself in the position more closely resembling a dictatorship than he was willing to give his predecessor.

REAL TALK FROM NEW GENERAL

Villa and His Followers to Have No Peace Until Chihuahua Is Freed of Brigands.

By Associated Press Dispatch.

Chihuahua City, Mexico, December 13.—Villa and his followers will not get a moment's peace until the State of Chihuahua is cleared of all rebellion and brigandage, General Francisco Murguía, the new commandant, declared today.

He said that he was sent to Chihuahua to establish order, and that he intended to stick to this object until it was accomplished.

This might take a month, but he was confident it would not take more. General Murguía said all legitimate business will be protected by the government; that reopening of mines and other industries will be encouraged, not only with moral support but in the form of strong military detachments for their protection.

General Murguía has abolished martial law in Chihuahua and restored business to practically a normal basis. He has sent a strong force south after the bandits that attacked a train in Cachimba Canon, and another to keep the route open to El Paso.

GERMAN LOSSES

(Associated Press Cable)

London, December 13.—(Bulletin)—The total German casualties, excluding those in the naval and colonial services, reported in the German official lists for November, says a British official statement issued today, was 166,176 officers and men, making the total German losses in killed, wounded and missing since the war broke out, 3,921,869.

OIL PRICES ARE BOOSTED

By Associated Press Dispatch.

Findlay, O., December 13.—The Ohio Oil Company this morning added five cents per barrel on all grades of oil with the exception of Plymouth, which was raised ten cents.

The new prices are: North and South Lima, \$1.53; Indiana, \$1.38; Wooster, \$1.75; Illinois and Princeton, \$1.57; Plymouth, \$1.23.

WILL RETAIN THE OLD NAME

By Associated Press Dispatch.

Queretaro, Mexico, December 13.—The Constitutional Convention decided yesterday, in adopting the preamble of the constitution, to retain Estados Unidos Mexicanos as the official name of the Republic, instead of changing it to Republica Federal Mexicana, as was proposed by some of the delegates.

GERMAN REPLY RECEIVED IN U. S.

Contents Sinking of Lanao Was Justifiable.

By Associated Press Dispatch.

Washington, December 13.—(Bulletin)—Germany's reply to the American inquiry on the sinking of the American steamer Lanao by a German submarine off Cape Vincent, October 28, received at the State Department today, contends the sinking was justified, because the vessel carried contraband and was not, in fact, an American ship, but had been transferred to Norwegian ownership.

NOVEL QUESTION FOR THE COURTS

Are We in War With Mexico—Ohio Supreme Court Must Decide.

By Associated Press Dispatch.

Columbus, O., December 13.—The Supreme Court of Ohio was called up on today to decide the question as to whether this country is in a state of war with Mexico.

The question is raised by General E. S. Bryant, at present Adjutant General of Ohio, in order to determine

what salary he is entitled to as Assistant Adjutant General.

There is a law which provides that in time of war assistant adjutant generals are entitled to the same pay as colonels in the United States Army service. This is about double the salary received by the Assistant Adjutant General in time of peace.

Adjutant General Bryant presented claims for war salary. Neither Attorney General Turner or State Auditor Donahey were able to answer the question as to whether a state of war exists, so I was agreed to ask the Supreme Court for a decision.

H. J. Turney, Judge Advocate General of the Ohio National Guard, filed the suit, in behalf of Adjutant General Bryant and against State Auditor Donahey, this afternoon.

The Court will hear the case January 3. The determination of the question will be of interest to every National Guard organization in the country and will probably be the first court decision on the question of whether the President's call for troops for Mexican border duty last June placed this country in a state of war.

GRAND JURY FIRST HITS COAL PRICES

Under the Direction of Frank M. Swacker Federal Grand Jury Is Well Into Task.

By Associated Press Dispatch.

New York, December 13.—Under the direction of Frank M. Swacker, Assistant United States Attorney General, a federal grand jury here today began its investigation into the increased cost of living.

The coal situation was the first subject into which the federal authorities delved. Subpoenas were issued for representatives of coal companies and of coal carrying railroads.

If criminal prosecutions develop, it is said that they would be only incidental to the grand jury investigation, the announced purpose of which is to obtain information for the guidance of President Wilson and Congress in formulating legislation affecting coal and food.

REGENT OF POLAND

(Associated Press Cable.)

Warsaw, December 13.—Archduke Charles Stephen of Austria has been selected to be Regent of Poland, with the prospect of election as king later.

FEAR CANADIAN BOAT IS LOST

By Associated Press Dispatch.

Ottawa, Ontario, December 13.—It is feared today that the Canadian torpedo boat Grise has been lost at sea with all hands.

The vessel left Halifax December 11 for Bermuda.

She has not been heard from since about 7 o'clock the following night, when a message was received which said that she was sinking.

The Grise carried a complement of about fifty officers and men.

BATTLES SECOND TO PROPOSAL OF PEACE

Fighting, However, Still Continues on the Battlefields of Europe.

German Press Insist Peace Proposal Is Sign of Strength, Not Weakness.

By Associated Press Dispatch.

Fighting is continuing on the battlefields of Europe, but interest in the operations is overshadowed by the pending peace proposals of Germany and her allies.

The proposals are voluminously commented upon by the press of both the Entente and Teutonic Allies, but with the handicap of lack of definite knowledge of the terms on which Germany and the powers allied with her are willing to discuss peace.

In general, the tone of the Entente press comment is not optimistic as to the probable success of the overtures.

German newspapers lay emphasis upon the offer as a sign of strength, rather than weakness.

Great Britain's attitude, according to London dispatches, may be made known in the House of Commons when it reconvenes tomorrow, provided the time proves sufficient for her to consult her allies.

Petrograd's official statement today agrees with the Berlin headquarters report in admitting a continued Roumanian retreat between Mizil and Buzeu, the retreat following a Teutonic counter attack after the Roumanians had taken the offensive and occupied several villages.

Berlin reports that Field Marshal von Mackensen took more than 7,000 additional prisoners yesterday.

The Russian communication records successes against the Austro-German forces along the Moldavian frontier, notably south of the Troutus Valley, where height positions were taken and held against counter attacks.

A German semi-official computation gives the Entente losses in the war vessels since the outbreak of the war at 192 vessels, excluding auxiliaries and other special types, but including torpedo boats and submarines, totalling 744,600 tons, of which Great Britain lost 123 ships of 563,200 tons.

VILLA'S INTENTIONS

By Associated Press Dispatch.

El Paso, Texas, December 13.—Francisco Villa announced in Chihuahua City that he intended to divide his men into groups of 25 each and distribute them along the American border and in the interior of the United States to loot and burn property under his instructions, a letter received from a prominent Chihuahua City business man and forwarded to Washington today, stated.

REIGN OF TERROR PREVENTS PROBE INTO UGLY CRIME

Indiana Grand Jury After Months' Work Endeavoring to Find the Party Who Murdered Roy Brown, a Former Fayette Boy, Fails.

The mystery surrounding the foul murder of Roy Brown, formerly residing near Good Hope, this county, at Red-Key, Indiana, remains unsolved, and a reign of terror has followed the crime so that the grand jury, after a vain endeavor to find some solution to the crime, gave up the task because witnesses were afraid to tell what they knew, having been threatened with death if they implicated anyone in the crime.

After nearly four weeks' session the grand jury obtained evidence which indicated that one or more of a half a dozen men committed the deed, but which one is the guilty party, they could not decide. Detectives, police and other investigators who have taken up the crime have been threatened with death, and some have lost property by mysterious fires, so that the murderer is feared by nearly everyone interested in the case.

Roy Brown moved from near Good Hope to Chillicothe, and from thence to Red-Key, Jay county, Indiana.

Following is the grand jury's report of the case, which also reviews the crime:

"On the night of January 29th, 1916, at Redkey, Indiana, Roy Brown was foully murdered; some two and a half months later, his body was found in a field southwest of Redkey, in a decomposed condition, with the right hand missing and three bullet holes in his back. In our investigation of this matter we have had before use a hundred and twenty-five witnesses or more. We have been much handicapped in our efforts from getting at the real truth by the manifest fear of many witnesses called before us that if they should testify to any fact which might lead to the return of an indictment their persons and their property might be endangered or destroyed. More than this, an organized effort has been at work during the whole of our sitting to impede the investigation and to cover up the crime. Such a state of affairs, in our opinion, reflects seriously upon the good name of our county, amounts to a reign of terror in the vicinity in which this murder was committed, and shows an organized effort to circumvent and defy the law. The grand jury is convinced that the guilt for this foul murder lies within six suspected persons, but, for lack of time, and no account of the terrorism referred to and the organized defiance of the law mentioned, we have not yet been able to definitely place the guilt, or to find sufficient evidence upon which any one of which these six could be indicted with a fair probability of securing a conviction. Because of all these things, we feel that every measure of the law ought to be fully exhausted before it must be said that murder may be committed with impunity within our midst. The guilty murderers ought to be brought to book at any cost; and the good name of the county ought not be spoken of in terms of dollars, nor sacrificed as a matter of economy. To this end, we recommend that another grand jury be called at once to take up and continue the investigation of this matter until the guilty persons are brought to trial, or it is demonstrated beyond question that there must be an entire failure of justice in this regard."

CURED PATIENT BUYS RED CROSS SEALS

Tells Why He Supports Great National Red Cross Christmas Movement.

"Personal experience means much in one's attitude toward the Seals. Will you let me tell why both gratitude for the saving of my life and a desire to help exterminate tuberculosis makes me buy and use Red Cross Christmas Seals?" This is a request in a letter from a cured patient in one of Wisconsin's County Hospitals for Tuberculosis, who says:

"I was shocked to learn in 1910 that I had consumption. I thought that was the end of me. Fortunately for me the National Tuberculosis Association and the American Red Cross had taken up the task of informing the nation that a pulmonary tuberculosis can be arrested and perhaps cured by a combination of fresh air, good food, perfect rest, and freedom from care. In course of time this good news had reached Wisconsin and the Wisconsin Anti-Tuberculosis Association was organized to carry the message into every corner of the state. Through this propaganda sanatoria were established in various parts of the state. So when the disease became a very personal matter to me, there was an institution near at home to teach me how to breathe, eat, rest, and think, so as to live with tuberculosis, and at a price within reach of my moderate purse. This was all the result of the philanthropic propaganda of these national organizations and the Wisconsin Anti-Tuberculosis Association, to whom I must always be grateful for my present health and strength."

What Red Cross Seals have done in Wisconsin they have done and are doing in every other state in the Union. All but ten percent of the proceeds, which is used for expenses, remains in the state where the Seals are sold to be used for the prevention of tuberculosis.

C. W. B. M. PROGRAM

The Christian Woman's Board of Missions held their annual C. W. B. M. day program Sunday evening at the Christian church. There was a large attendance and a very impressive program was given by about twenty of the members of the society. This part of the program demonstrated that the reasons usually given for not helping with missionary work were without much foundation.

There were also readings by Miss Bernice Sessler and Miss Della Johnson.

Rev. Groves gave a very instructive talk on South America.

Miss Amy Kier sang a beautiful solo and the choir furnished some excellent music.

The President, Mrs. VanGundy, thanked all who had assisted the society in the program. A very creditable offering was taken.

GAS RATE DROPS \$2.35 LOWER THAN OLD RATE

Washington citizens who might be inclined to protest over the rate of 45 cents per 1,000 cubic feet charged for natural gas in this city, will be interested in an old receipt which has just come to light, showing the rate paid for artificial gas back in 1885. The receipt shows that at that time the rate charged for gas was \$2.75 per 1,000 feet, or \$2.35 more than the present time.

As the use of gas increased in the city, the rate for artificial gas dropped considerably until it stood around \$1 per 1,000 feet when the natural gas was piped into this city some five years ago.

THURSDAY IS DAY OF SENDING CHRISTMAS TO BOYS ON BORDER

All persons sending Christmas remembrances to the members of Company M are urged to have their packages at the Y. M. C. A. not later than noon Thursday, so that they may all be packed and shipped out without delay, the Dutch Treat Club paying the express charges.

All other cities are remembering their soldier boys in a very handsome manner, and citizens of Washington generally are invited and urged to send something to the boys so that not one of them will be missed, and the private in the rear ranks may be remembered as well as the officers.

Those in charge urge immediate and liberal response so that when the consignment is shipped Thursday it will be a remembrance worth while.

WELFARE ELECTION ANNUAL MEETING

The attendance at the annual meeting and election of the Welfare Association was very disappointing Monday night, only those workers who have been most indefatigable braving the sudden blast of winter—although this was true it was not felt to be a lack of public interest as people are awakening more and more to the importance of this splendid municipal work.

The little audience was well repaid for braving the weather in the fine address given by Miss Stewart, supervisor of nurses of the public health department of the state, and in the human interest stories from the personal work of the Association in this city, entertainingly told by Miss Lina Willis, President of the Association.

Miss Stewart stated that Ohio stands first in the nursing work of the state and in the fight against tuberculosis.

Miss Sutton, the Association nurse, made her annual report which will be published in full, and Mrs. Frank L. Stutson, treasurer, an itemized report of receipts and expenditures. The treasurer reported \$180.00 on hand with pressing calls following the beginning of cold weather.

The officers elected for the coming year were Vice President, Miss Flora Allen; Secretary, Mrs. C. W. Lewis; Treasurer, Mrs. C. Howard Griffin; Executive Board, Miss Lucy Brownell, Mrs. Carrie B. Willis; Miss Florence Ogle.

The President has not yet been named and will be appointed by the Board.

BIG STRAW SHIPMENTS BY LOCAL DEALERS

Considering the shortage of straw this year in this section and the great difficulty experienced by shippers in securing cars the record made by the local firm of Grant DeWitt and Sons is really remarkable.

Since August 1st the local firm which ranks among the most extensive shippers in this section has shipped something over 400 cars of straw to the various strawboard companies and other dealers.

At the present time DeWitt and Sons are busily engaged in buying baling and shipping hay and their shipments in that commodity are fast rivaling the tremendous totals of the straw shipments.

CITIZENS OBJECT TO HAY ON STREETS

Citizens are protesting against the practice observed by some dealers in hay of leaving wagons loaded with hay standing on the streets during the nighttime.

Two dangers are pointed out by those who are protesting, the first is that the persons violate the law by failing to hang out warning lamps, and that there is likelihood of someone setting fire to the hay and starting a blaze which might easily communicate to nearby residences.

Germany's Proposal

The civilized world was surprised on, Tuesday morning when the cables and telegraph wires flashed the news to every nook and corner of the earth that Germany had made proposals to enter into negotiations with a view to bringing peace in Europe.

Every act and every utterance of Chancellor Von Bethmann Hollweg evidences sincerity of purpose and unselfishness of motive.

"Realizing their responsibility to God and to humanity" to quote from the great Chancellor's speech to the Reichstag, Germany and her allies Austria, Turkey and Bulgaria are willing to take the initiative in bringing the conflict to an end.

As was to be expected the proposal has been received with a great deal of pessimism. London, especially, in advance of the receipt of the formal notification, was particularly pessimistic.

Viewed from the standpoint of Germany the proposals to restore the status quo as it was at the beginning of the war, to establish a free Poland and to surrender the conquered portions of France and Belgium asking only in return the restoration of Germany's conquered foreign colonies are liberal for the initial step.

What the proposals will result in and just what purpose actuates Germany are matters upon which every individual must reach his own conclusions.

At any rate the important thing to be considered is that it is a proposal for peace. The possibility that good will grow out of it is worthy of consideration.

Only the most optimistic, however, can, at this time see peace restored to distracted Europe as a direct result of the momentous happenings of Tuesday.

There is no basis as yet for the assumption that Germany is merely endeavoring to restore herself in favorable public opinion or that the war party is intending to put into execution some new plan of warfare which would be shocking to civilization and makes the proposal now with the hope of justifying future conduct.

No, we must accept the proposal now at face value. The game seems to be big and too terrible for such small play as that.

There may be a stronger sentiment for peace in Germany that the world knows about. The sufferings of the German people may be far greater than the world, judging by the brilliant and successful campaigns of her successful armies, would be warranted in assuming.

Germany, we must presume, realizes that the war can never be won by her and that her defeat is only a matter of time—it may be a long time it's true but the odds are too overwhelming against her.

The "inevitable" notwithstanding the outward appearances which follow Germany's sweeping victories, may be nearer than the world knows.

If the warring nations can once agree to talk peace and sign a protocol there is little likelihood that hostilities will be begun again.

Perhaps it may be because the proposal came so unexpectedly but the world generally accepts the conditions precipitated by Tuesday's developments with scant hope that permanent peace is near.

One Bright Ray

Mr. Estberg the superintendent of The Washington Gas and Electric Company in going through some of the old files of the company a few days ago came across a duplicate bill of date 1885 for gas consumed by The Register printing office.

Comparing the price of gas then with the present price results in producing a feeling of satisfaction with existing price conditions that is a little unusual in these days when every thing seems to be "jumping over the moon" so far as cost price is concerned.

We now are paying forty cents per thousand feet with certain reductions for cash payment etc, which bring the price down to the consumer to about thirty-five cents per thousand. At that time according to the old bill the price, per thousand feet, was two dollars and seventy five cents.

Those figures seem to refute the all too general understanding that we suffer at the hands of the public service corporations.

Surely the price of gas shows a very gratifying decrease during the thirty-one year period which has intervened between the time the printer paid two dollars and seventy-five cents per thousand feet for his gas and the present time.

We can now face the present with more courage when we realize that even back in the "good old days" the publisher had troubles.

At that time he may not have had seven cent paper but he had gas prices to contend with.

Poetry For Today

AND THE HEART TO ITS HOME

There's a place a-dream 'mid the singing pines
Where starlight's tangled in blossomy vines,
And the latch-clink of a gate means life

That's sweet with rest from the thunder-strife;
Only a little Place of Light
When toil is ended and God sends night

To heal the wounds of the fighting day—
A place where stars and love-dreams stay.

The bird to the nest and the bee to the comb,
And the Heart to its Home!

Flowers and stars and dreams that wait
On the slink of the latch at a vine-wreathed gate;
And voices of children that seem to say:

"Heaven is never far away!
Not back of the walls of the worlds so bright;

It is here, in a little Place of Light!"
That is the music no world-storm mays,
Sweeter than ever was song of stars.

The ship to the harbor from over the foam,
And the Heart to its Home.

And Toil is sweet, since the welcome night
Leads Life's steps to that Place of Light;

Its Peace is calling: The Roses say:
"Turn from the stress of the stormy Day

To the peace of Twilight's brooding wings—
Turn to the path where the heart-side sings!"

O that is the path that Life knows best,
Sure and sweet to a dream of rest.

The bird to the nest and the bee to the comb,
And the Heart to its Home.

PRESIDENT MAY OFFER HIS AID

Wilson to Learn Attitude of Entente Powers.

AWAIT OFFICIAL NOTE

Absence of Specific Terms of Peace in the German Document Disappointing to Those Who Expected Some Concrete Expression of a Basis for Procedure—Effect of Terms Upon Pending Issues.

Washington, Dec. 13. — Germany's peace proposal is looked upon by officials here as having broken the chains which have restrained the United States and other neutrals from making offers of mediation.

Advices from Berlin to the German embassy indicate that Germany's peace terms, in a general measure, propose the restoration of the status quo before the war with the exception of the establishment of independent kingdoms of Poland and Lithuania.

They are understood to propose the complete restoration of the occupied portions of Belgium and France in return for Germany's captured colonies, and to dispose of the Balkan situation, because of its extremely complicated nature, in the peace conference.

Whether the United States will transmit the German proposal without any comment whatever, or accompany it with some formal or informal expression, will not be finally decided until the note delivered to American Charge Grew in Berlin reaches President Wilson's hands.

There were indications that President Wilson might find some way to express the solemn and earnest wish of the United States for a careful consideration of the suggestion of peace, even before the entente governments have made known their attitude toward the German proposal.

May Send Colonel House.

Regardless of whether President Wilson decides to accompany the German proposal with any word, it was said he unquestionably would take steps to learn the attitude of the entente allies toward the peace move and possibly might again send to Europe his personal friend and adviser, Colonel E. M. House.

President Wilson is said to be

"deeply interested, but reserving comment." Secretary Lansing maintained a similar attitude. The cabinet discussed the development at its regular Tuesday meeting, but the situation was described by members as so obviously delicate that no announcement could be made.

The absence of any specified terms for peace in the note, or in the German chancellor's speech, was in a measure a disappointment to those who expected some concrete expression of a basis on which negotiations might begin. The German embassy, however, is in possession of advices which outline in a general way what Germany expects, and the diplomats of the entente powers, through their means of being supplied with information, believe they have a general idea of what terms the central powers are willing to advance as the basis for discussion.

The actual procedure in conveying Germany's proposal to her enemies, according to precedent, begins with Charge Grew's forwarding the note to Washington. The state department then will forward it to the American embassy, resident in the country to be addressed, and he in turn will present it to that government, acting in the interest of Germany and her allies. The United States now represents Germany and Austria in Belgium, France, Great Britain, Japan, Russia, Serbia and Roumania; it represents Turkey in France, Great Britain and Japan. It does not represent Bulgaria anywhere and represents none of the belligerents in Italy, Portugal or Montenegro.

Regardless of how far Germany's proposal may be expected to go toward ending significance that for the first time in two and a half years of war one group of belligerents had addressed the other on the subject through the channels of diplomacy.

One immediate effect of the peace developments upon the United States will be to hold practically in abeyance all the diplomatic issues pending with the warring countries. The new submarine issue with Germany, the protest against deportation of Belgians, the controversy with Great Britain over mails and commerce, all will mark time until it becomes apparent whether they will be solved by the advent of peace.

JOHN HAYS HAMMOND
Noted Mining Engineer Recovering From Illness.

Washington, Dec. 13.—Timothy T. Ansberry, counsel for the Newspaper Print Manufacturers' association, threw a bombshell at the opening of the federal trade commission's hearing in the news print paper investigation by charging that the commission has broken faith with the paper men and is conducting its hearing in an unfair manner. The witnesses and representatives of the paper trade were confronted with a complication of evidence gathered by the commission tending to show no economic justification for paper price increases and were directed to explain the figures. Mr. Ansberry protested against this move, saying it was unfair not to give his clients an opportunity to prepare answers.

The commission heard small newspaper publishers testify as to their difficulties in getting paper.

SELL PETS TO OBTAIN MONEY FOR WORTHY

(Associated Press Cable.)

London, December 13.—In these days when nearly everybody is giving up something to the cause of the war, pet animals have played a prominent part as a form of war charity. People have given their dogs and cats to charitable institutions to be auctioned off to raise money for wounded soldiers. So many unsalable pets have been offered as to make them a burden to the animals protection societies.

At a recent sale many of the cats and dogs were so old, decrepit and dirty that no bids could be obtained for them, and they were handed over to the societies to be put to death by gas.

NOTED JOCKEY IN WAR

(Associated Press Cable.)

Berlin, December 13.—Rastenberg, the premier among German jockeys who won almost 50 "first" this year for the Royal Graditz Stable and who cleared nearly half a million marks for his employer, has at last been drawn into the army. He is now in training as an artilleryman at Frankfurt-on-the-Oder.

TO ENFORCE EDICT ON FOOT BINDING

(Associated Press Cable.)

Peking, China, December 13.—The ministry of interior, prompted by Chinese medical men with western scientific training, has just issued a circular to provincial officials calling attention to the edict issued ten years ago against foot binding and urging them to put it into effect. In remote sections the practice is almost as general as it ever was, and it is no uncommon sight to see young girls with bound feet even in Peking and other North China cities where the

practice never was as much in favor as in the south.

Missionaries throughout China have discouraged the practice to some extent by announcing that girls with small feet would not be admitted to mission school.

Rewards are now to be offered to family and clan chiefs who succeed in stamping out footbinding among the persons under their patriarchal jurisdiction.

OLD FORMS OF CITY GOVERNMENT PASSING

(By Associated Press Dispatch.)

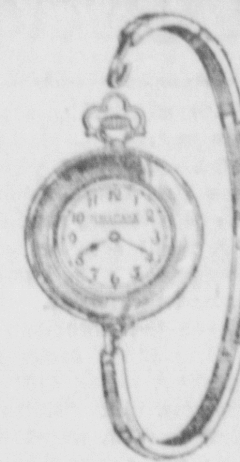

Washington, December 13.—The twelfth annual convention of the American Civic Association opened here today. The first session was taken up by reports of five organizations.

The report of the National Municipal League, which seeks to advance the latest ideas in municipal administrative methods declared obsolete forms of city government were rapidly passing in favor of a more representative system of government by the people.

The afternoon session with Miss Margaret Wilson in the chair was devoted, chiefly, to a discussion of the movement to obtain the use of city schools for community gatherings.

Dr. Henry E. Jackson, of the United States Bureau of Education, outlined the power, scope and progress of the movement seeking a wider use for the school house, through its community possibilities.

In Social Circles

Rev. Arthur P. Cherrington united in marriage at eight o'clock, Tuesday evening, Miss Ruth Leininger, daughter of Mr. and Mrs. S. A. Leininger, of Bellevue, Ohio, and Mr. Durward Murphy son of Mr. and Mrs. Joseph Murphy, of this city.

The ceremony took place at the home of Mr. and Mrs. Frank L. Hard, on Briar Avenue, Millwood, Mr. and Mrs. Hard attending the young couple.

A few friends witnessed the ceremony. The bride has had charge of the Jess W. Smith millinery department for the past two years and has won many friends both personal and in business relations during her short residence.

An exceedingly pretty girl of the brunette type, she made a stunning bride in brown crepe meteor, with white georgette collar and cuffs and small white velvet hat, with yellow aigrettes.

The bridegroom is the popular wire chief of the Ohio State Telephone Company and shares with his bride in good wishes galore.

Mr. and Mrs. Murphy will reside on Sycamore street for the present.

Complimenting her guests Mrs. Fred Lafferty, Miss Anna Evans and Miss Ellen Rogers, of Hillsboro, Mrs. Harley T. Wilkin entertained with a Bridge luncheon, Tuesday.

It was an elaborate luncheon of exquisite appointments, again verifying Mrs. Wilkin's established reputation as a charming hostess.

Twenty young women were seated at small tables, having for embellishment crystal bud vases of pink roses and swansonia, the bases trimmed with smilax.

The luncheon courses comprised the season's delicacies and introduced the color note.

In the spirited game which followed Mrs. W. M. Mitchener won the trophy a handpainted enamel wall pocket, and Miss Rogers the guest favor, a hand painted enamel serving tray. Both gifts were the hostess's own work.

Mrs. Wilkins, who is always smartly groomed and gowned, was wearing a modish gown of rose satin, velvet and georgette crepe.

Mrs. Lafferty, a petite and pretty blonde, wore a gown of canary crepe de chine and taffeta, with platted skirt.

Miss Rogers, a striking brunette, wore a coat dress of wisteria crepe de chine.

Miss Evans was handsome in Alice Blue satin and georgette crepe, made empire with angel sleeves of the georgette trimmed with the silver band.

The favored guests were Mesdames Moorman, Mitchener, Maynard, McLean, Thompson, Brock, Story, Persinger, Boggs, Willis, Malow, Robinson, Leland, Misses Calvert, Howat, Ginn, Woodward.

Mrs. G. L. Sprague pleasantly entertained the luncheon club, Wednesday.

Mrs. Otto Titcheller of Chillicothe was an out of town guest.

Robert McFadden entertained at a jolly six o'clock dinner Tuesday evening his colleagues of the High School Quartet, Howard Gregg, Carey and Earl Giddings, Aloysius McDonald, Capt. of the foot ball team and Albert Briggs, head booster.

The social science and philanthropy department had in charge an interesting program at Tuesday night's Browning Club meeting.

After the President, Mrs. Coffman, had called the meeting to order, Mrs. Mae Rodgers, treasurer, reported

WOMAN'S AUXILIARY EXPRESS GRATITUDE

The regular meeting of the Woman's Auxiliary of the Y. M. C. A. was held Monday afternoon at the association building.

The women expressed themselves as well pleased with the success of the Older Boys' Conference which was held the first three days of the month, and which showed a record attendance from all over the state. The Auxiliary had helped to make conference possible.

The women wish to again thank the citizens of the town for the ready response and generous hospitality offered these boys, and especially to thank the Pythian lodge for the splendid banquet served to the delegates and helpers, on Friday evening.

That the boys themselves were well pleased with their entertainment and with Washington C. H. has been evidenced by numerous letters which have been received from boys by those in whose homes they had been guests.

A BIG AIM

The fundamental aim of Tuberculosis Week is educational. It is not essentially for the purpose of securing funds for anti-tuberculosis work, although in some communities special collections may be taken. Emphasis is laid primarily on the great good which will come from an increased knowledge of the nature of the disease and the methods of prevention. Last year over 150,000 churches and other organizations helped to spread the gospel of good health during Tuberculosis Week. The National Association for the Study and Prevention of Tuberculosis believes that this year these churches and additional thousands of organizations—religious and social—will assume responsibility for helping to educate the public on the subject of tuberculosis.

MARY PICKFORD

Much interest is shown in the forthcoming presentation here of Mary Pickford's first picture in which she appears as an independent star, the part of no programme and giving an entire afternoon and evening performance with a production described as one of the costliest and most elaborate ever made for this famous and favored little woman. It is called "Les Than the Dust," taking its title from a poem by the same name written by Laurence Hope. The scenario is by Hector Turnbull, who has given Mary Pickford a part that offers every opportunity for her delightful comedy and appealing note of pathos. The scenes are laid in a city in India and in England and there are any number of tense and dramatic situations. John Emerson directed the picture for the camera and the cast is one of distinction surrounded by a playing company of nearly two hundred and fifty people. It will be presented at Friday Theater Tomorrow and Friday. advt.

ARREST MADE

Girl's Death Similar to Orpet Poison Case.

Des Moines, Ia., Dec. 13.—With the arrest of Kimmage Widener, twenty-seven, the police professed to see in the death of Elizabeth Walls, twenty-one, a parallel of the Orpet case at Lake Forest, Ill., last spring. Miss Walls died Nov. 27, of poison. Found by her mother, she told her that she had been indiscreet and had been compelled to swallow a drug after being rendered almost unconscious by chloroform, according to an affidavit by Mrs. Walls. Physicians found that death had been caused by carbolic acid and the coroner, deciding the case was one of suicide, held no inquest.

Police, however, were not satisfied and investigation revealed that Miss Walls had been heard talking to a man shortly before she was found and workmen near the Walls home said they had seen a man walking rapidly away from the house. Efforts are being made to learn where and by whom the acid was purchased.

Gloria Romance
by MR. and MRS. RUPERT HUGHES
Novelized From the Motion Picture Play
of the Same Name by George Kleine
Copyright, 1916, by Adelaide M. Hughes

Continued From Yesterday's Herald
SYNOPSIS.

Herbert Stafford, with his daughter Gloria, is wintering at Palm Beach. Being lost in the everglades Gloria falls into the hands of the Seminole Indians. Five years later she leaves school and meets Freneau at the theater; he has forgotten Gloria. Later Freneau persuades her to forgive him. Gloria's step-sister, Lola, becomes intensely jealous and Doctor Royce discovers in her ally. Freneau takes leave of Gloria as seen from her window an attack made on him. Doctor Royce convinces her it is delirium. She accidentally sees the supposed suicide of Freneau reported in the paper. Gloria swears to find the murderer. Gloria insists in going to Palm Beach. She is recognized by her enemy, the young Indian chief. Freneau is her captor, and not Freneau was a rescuer at that time. Gloria attends court; she sees Mulry there, also a tramp who attacked Freneau. But she Freeman releases him. She follows a tramp when he leaves court. She finds a man in a low saloon dance hall, and is seduced by one of the patrons as his part.

Doctor Royce, however, follows her when he attempts a rescue, calls on a riot on their heads. The hail is shot and the crowd, including Gloria and Royce, is arrested and taken before Judge Freeman. Casimir arrives with the girl Gloria promised to marry. She orders Royce to take Casimir's wife to the hotel home. She follows Trask and is on a houseboat to hear him accused Freneau's murder. She confronts him, imprisons her, but she ties him up and goes. In the yacht Gloria and the men raise the barge in the light that follows Trask is badly wounded. He is taken to the Stafford home. Royce endeavors to return to Lola her letters to Freneau. During a playful scuffle Gloria prevents her from committing the murder. Royce tells her all. She sees one of her letters to Freneau. She confesses his part. When Lola is confronted she flees from Gloria intent on suicide. But Gloria races after her and prevents her from committing the deed. She then returns the letters to Lola and forgives her. Thinking that Gloria is the responsible for Freneau's death, she takes him aside to confront him. But Trask has been spirited away by Judge Freeman who believes as Gloria does.

There was no hesitation about employing piratical methods of extorting from the rich as much money as they could be reckless enough to bring with them. The hollow eyes of the ragged ravelings of Poland would have filled in wonder if they could have seen far off America the well-fed, silk-clad aristocrats reveling in their belief. It was a strange way of getting food for the hungry, but it was the shon of the day, and most important of all, it accomplished its purpose. The world was so packed with misery and so hounded with cries for help that it took something more than money to wheedle funds from the glib public. It took beauty and entertainment. Gloria furnished these in full measure at her festival. In her aged doublet and hose, with her faded cap and child, she danced and ped, and the children followed about a lawn with a moving audience till she led her little army into the great hall that Pierpont had ordered constructed in one of his hills. The mothers left behind pretended to weep for their lost ones, and they begged the pious to return. So Gloria, contrary to tradition, came back from the cave, and surrounded her kidnapped troop, bowed and wed.

Gloria was good and tired when the rest of the spectators had gone home impoverished. She stretched herself on the divan in the living room and let her old loneliness come back upon her. Her task was done and she was of more use to the world, for, of course, her father had pointed out to her that her project to take the funds of Poland in person was a beautiful possibility. There were several million soldiers between her and Poland, and the price of the voyage, even if she could make it, would buy several pounds of loaves of bread. She was in so forlorn a humor that when Doctor Royce took a chair close to her and poured forth his praises, she accepted them hungrily. He was encouraged to the wildest hopes by her response and he kept hunching his arm closer and closer.

His head was almost touching hers when her father had come into the room with the proceeds of the festival. "I Got a Good Hold on His Neck!" derling why she said just that. "Did you say 'in the family'?" She looked at him with despair in her eyes and nodded her head. "I said 'in the family!'" she said. And "Oh!" said he. Then he stared at her so hard that she closed her eyes and did not see the change come over his face from be-

wonderment to an eager guess, to a rapturous hope, and a reckless courage. She did not even see him seize her in his arms and kiss her. But she was well aware that he did. And she had a womanly intuition that romance, instead of being ended for her, had just begun.

Head of Farmers Opposed to Food Embargo.

Newark, O., Dec. 13.—The Ohio State grange at the opening session of the forty-fourth annual convention here stood in silent prayer for thirty seconds, to show its approval of the movement started by Germany and the central powers looking to peace in Europe.

The annual address of President L. J. Taber of Barnesville vigorously opposed any federal embargo on food stuff, characterizing an embargo as "one of the most foolish and shortsighted measures recently proposed."

Taber urged the farmers to pay more attention to co-operative selling rather than co-operative buying. He indorsed the principle of arbitration in settling difficulties between sellers and purchasers, whether it be in the form of farm capital and labor or in the form of farm produce and the organized purchasers thereof.

Taber insisted the present high cost of living should not be blamed on the farmers, but rather on the transportation and faulty methods of distribution.

He thought a state commission of markets should be appointed in Ohio to bring the producer and consumer closer together and eliminate waste. He said there was need for better service in state offices, too. The Ohio state grange, he said, has not changed its position in favor of state and nationwide prohibition, and he recommended presidential suffrage for Ohio women.

Ohio farmers are almost solidly in favor of the Smith 1 per cent tax law, he said, and would not stand to see it mutilated by the legislature.

WILL RESUME THE CONFERENCES

General Carranza Refuses to Sign Protocol.

Washington, Dec. 13.—Information reached here that, despite earlier word that reached members of the American-Mexican joint commission, General Carranza has refused to sign the protocol drawn up by the commission at Atlantic City.

Secretary of the Interior Lane, chairman of the American section of the commission, would make no comment on that information, but announced that a meeting preliminary to the regular resumption of conferences by the commission would be held in Philadelphia Dec. 18. It was announced also that Alberto J. Pani, who carried the protocol to General Carranza for his approval or rejection will reach New York tonight.

No decision has been reached regarding the time or place for holding the sessions of the meeting after the preliminary conference next Monday. Mr. Pani, it was said, is bringing with him the full text of the comments on the protocol made by General Carranza. The Mexican members of the commission stated that they desire to spend some time in conference with Mr. Pani before the regular sessions are resumed.

GETTING ITALIAN WOUNDED DOWN A BIG PROBLEM FOR WAR ENGINEERS

TROLLEY FOR CONVEYING WOUNDED ITALIAN SOLDIERS

Although the center of war interest remains fixed in Roumania and Transylvania, there is considerable activity on other war fronts. Heavy artillery actions are reported from the Austro-Italian front. The terrain upon which the Italians and Aus-

trians are battling for the possession of the Trieste and the Austrian Adriatic coast is probably the most difficult in the war. "Every engagement and battlefield there is a miniature Verdun," says one account, and the bringing up of

guns and ammunition presents almost insuperable difficulties for both sides. The care of the wounded is equally difficult, and the photograph depicts an ingenious mountain trolley rigged up to take wounded Italian soldiers down the steep mountain sides.

EVEN SNOW FAILS TO HALT ARMY

Teutons Take More Towns In Roumania.

RUSSIAN LOSSES GREAT

Berlin Reports Heavy Fighting Along the Cerna River and Entente Allies Repulsed With Severe Casualties. French Admiral In Greece Relieved of His Command—Operations In Other Theaters of War.

London, Dec. 13.—The Cerna river region in Serbia and Roumania continues the sector where the greater portion of fighting is being done.

In Wallachia province, Roumania, snow has intervened to check, but only slightly, the advance of the central powers against the Roumanians and Russians. The town of Mizil, on the railway between Ploesti and Buzeu, has been captured, as also has the village of Urziceni, twenty miles to the southeast. Berlin announces that more than 10,000 additional Roumanians have been captured.

In the Carpathians and along the Moldavian frontier the Russians are continuing their violent attacks, but,

according to Berlin, without success. It is asserted by Berlin that the Russians in the Carpathians have lost 30,000 men.

Along the Cerna river, the entente allies have again attacked viciously, but again have been repulsed with heavy casualties, according to Teutonic allied advices. Five Bulgarian posts south of the Lymnitsa river have been captured by entente troops. Snow has put an end to infantry activity north of Monastir.

On the front in France and Belgium there is a continuation of artillery activity and small operations by patrol parties.

An unofficial dispatch from Switzerland says the king of Greece has ordered a general mobilization. An official communication from Paris announces that the French admiral, de Fourmet, commander of the forces in the Mediterranean has been replaced by Admiral Gauthier.

Berlin reports the destruction by a submarine in eastern Mediterranean of two big transport steamers loaded with war material. The British press bureau, however, denies that the vessels were transports.

Reorganize French Army.

Paris, Dec. 13.—General Neville, commander of the French troops at Verdun, has been appointed commander-in-chief of the armies of the north and northeast. The official announcement of this appointment says it is the first step toward the reorganization of the higher command.

MORE PAY URGED

Secretary Daniels Would Increase Seamen's Wages.

Washington, Dec. 13.—An increase of \$5 a month in the pay of every enlisted man in the navy was recommended by Secretary Daniels to the house naval committee. It would add \$3,000,000 a year to the pay roll, but the secretary declared pay increase in the navy had not equaled those outside and that the enlisted men were being called upon constantly to do more and more difficult work.

Enlistments are on the increase, Mr. Daniels said. He disapproved of a proposal for a bonus to stimulate the enlistment campaign.

To Get Increased Pay.

Washington, Dec. 13.—The legislative, executive and judicial appropriation bill reported to the house carried a 10 per cent increase in pay for employees receiving less than \$1,200 a year, and 5 per cent for those between \$1,200 and \$1,800. The increase, first of the kind in almost fifty years, would be limited to the next fiscal year, and apply only to executive departments except agriculture, the judicial establishment and the library of congress.

Stopped Children's Croup cough.

"Three weeks ago two of my children began choking and coughing, and I saw they were having an attack of croup," writes Billie Mayberry, Eckert, Ga. "I got a bottle of Foley's Honey and Tar and gave them a dose before bedtime. Next morning their cough and all sign of croup was gone." Blackmer & Tanquary.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel. Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. All druggists.
